

Runway layout for **White Gum Farm** (ALA YWGM freq 126.7 elev 1000')

Features

Grass paddocks (visible soft sand spots in summer on 10/28, 17/35)

RWY 17-35 *1500mtrs slope down toward runway junction ***NOTE** sand pit has temporarily shortened the northern end so that the maximum usable is **800** mtrs.

RWY 10-28 1300mtrs slope down towards runway junction

RWY 07-25 310mtrs slope down to east (*used as aircraft parking area at large gatherings*)

RWY 14-28 960mtrs hard sand (soft sides) trees at both ends

ALL LEFT HAND CIRCUITS

Use active runway only whilst other aircraft in circuit.

Note: taxiway only suitable for small aircraft ; max (low wing) wingspan 9.5 mtrs , gate 1.2 mtrs high

Gate is opened with VHF radio (P.A.G.) 126.75 hold for 10 seconds then 3 quick clicks.

FUEL- 98 octane fuel is available on request.

Hangar **coordinates** 31 52.026'S 116 56.342'E

Aircraft parking available Note that when parking from runway 14-32 there is only one access way into the parking area due to shape of runway sides.
